Dear Larry,

What is up is that I'm lucky to be here. They expected me not to be a year ago when the local hospital rushed me to Johns Hopkins, where I was for 24 days.

With all that was wrong it left me pretty feeble.

But I continue to work away as best I can.

That would be great is you can go back in the garage business.

And if you can pay for the lift.

By now you should be getting near the end of your time.

Hope so and that when you are out that all goes well with you.

Thanks for your good wishes.

Our best,

Harold
